

## Are You Really Ready to Fly?

Ever wonder what your responsibilities are, as the owner/operator with respect to your aircraft's "Airworthiness". Come join us for a lively discussion on questions such as: Do you know enough about the aircraft you operate, to determine that it is airworthy? Do you know the many regulatory requirements that clearly lie with you as the owner/operator? We will answer these questions and how the "Advanced Preflight" Program can help. Also, we will discuss Loss of Control In-Flight some of the causes (which can be mechanical) and methods of recovery to help make you a safer pilot. Please click on link below for more details and to register on-line!

**Directions:** See map link for directions seminar will be in the Haski Aviation Hangar.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
